Degree-Granting Programs

Name of Department: Biology

Complete a separate template for every degree & certificate.

In year 1, we plan to collect assessment data for two of three of our PSLOs. Since our courses are being taught remotely, we will not assess laboratory skills. Year 2, we will disaggregate the assessment data to identify potential gaps in student performance and develop strategies to close gaps. Since we need more data for disaggregation, we will continue to collect CSLO data. Year 3, we will implement strategies, as needed, and collect a year's worth of assessment data again.

	Year 1 (2020-21)		Year 2 (2021-22)		Year 3 (2022-23)
