FOUNDATIONAL AND ASSOCIATE LEVEL COURSES
Each Fall, Math discusses results of SLOs according to their category. (Note: The categories are based on our PSLOs for our Transfer Degree). We'll gather two semesters worth of data and share out results. We will also compare the data to the data collected three years prior since this is the second cycle for this process.
Note: Math 156 will only ever be offered during the Summer session. Data will be collected during that session.
Note: Math 27 is a new course that has not been offered yet. Materials are still in development. Unsure when this course will be offered.
