Using Data to Guide Student Success Teams

Helping our students just got easier and more effective

What are Student Success Teams?

How does this relate to our Academic & Career Pathways?

Academic & Career Pathways

There's a pathway for everyone at Las Positas College!

Advanced Manufacturing and Transportation

Undecided - Let's Explore!

Imagine if all students were organized into a Pathway supported by a Student Success Team

Student Success Teams

- Comprised of individuals from **Academic Services, Student Services, Administrative Services, Student Mentors**
- Use data for timely **student interventions**
- Provide **equity-infused practices and holistic support** along the student journey

What would we like to know about our Students?

- Who are they?
- Challenges and Barriers
- How can we help?

DON'T YOU WISH IT WAS THIS EASY?

Instead we're going to use…

DATA!

But that's not all.....

Imagine data that's disaggregated based on **students' pathways and demographics....**

Imagine the ability to contact students!

Then we can really see the **equity gaps** and where to focus our work

Student Data Sets

Looking into the future... **Guided Pathways leads will:**

- Collaborate with LPC office of IR and **Ellucian Advise**
- Provide each Student Success Team with **data sets**
- **Train** Student Success Team members on basic data analysis
- Place students and SST members into a **Canvas** "course" for each pathway

Breakout Group Activity

- 20 minutes
- Pick 1-3 data set descriptions (no actual data) to discuss

<u>Suggested discussion questions:</u>

- How do you **envision helping students** with this information?
- What **student interventions** would you recommend?
- How could a Student Success Team **communicate** appropriate information to a student?

3 examples of Student Data Sets

I applied to LPC and I'm excited to be in your program! What do you want me to know?

I have a goal of completing your degree but don't have an Ed Plan yet

I almost completed my major coursework, but stopped attending LPC

Discussion and Wrap-Up

- What came up for your group?
- What questions do you have?
- Are you interested and want to learn more?
