[Frequently Asked Questions](#)

Throughout this document you'll see that equity is a guiding principle.

Here is the LPC definition:

Las Positas College will achieve equity by changing the impacts of structural racism, ableism, homophobia, and systematic poverty on student success and access to higher education, achieved through continuous evaluation and improvement of all services. We believe in a high-quality education focused on learning and an inclusive, culturally-relevant environment that meets the diverse needs of all our students.

LPC Equity Definition: Equity is parity in student educational outcomes. It places student success and belonging for students of color and disproportionately impacted students at the center of focus.

_____ N/A

Barrier	Suggestions
We do not collect sufficient demographic data on our LGBTQ+ students that is inclusive	We should investigate ways to gather data related to queer identity and sexual orientation. We also need to allow students to identify as more than gender binary categorizations (male/female).

Section Two: Data Analysis – Quantitative and Qualitative

A. IR Data Review: Discuss any significant trends in the data provided by the Office of Institutional Research and Planning (or any other data you use for decision-making and planning).

(Note: Not all Programs have IR data available; if your program does not have a data packet or dashboard data, you may note that in the response box.)

- IR Data packets are available here (posted Fall 22): <https://bit.ly/2lYaFu7>
- Course Set Standard Overview & Success Rates Dashboard can be found in the middle of this page: <https://bit.ly/2Y9vGpl>

Most of our students are using a combination of DE and F2F courses and vary from part-time to full-time with about an even split between those taking 6-11.5 units and 12+ units.

B. Program-Set Standard (Instructional Programs Only):

The program-set standard is a baseline that alerts programs if their student success rates have dipped suddenly. There are valid reasons a program does not meet the Program Set Standard; when a program does not meet this standard, they are simply asked to examine possible reasons and note any actions that should be taken, if appropriate.

[Program-set standard data can be found on this page](#)

- Did your program meet its program-set standard for successful course completion?
☒ Yes ☐ No
- If your program did not meet your program-set standard, discuss possible reasons and how this may affect program planning or resource requests.

Our success rate for LGBT 1 was 84% and this was the first time this course was offered. Further research will be conducted to examine how we might continue to improve the success rate in this course.

C. SLOs/SAOs: Assessment of Student Learning and Support

Program Review is our major source of data on student learning for the college and is therefore regularly reviewed. *Each year programs must discuss how their PSLOs, CSLOs, or Service Area Outcomes (SAOs) support the College Mission. This helps us to see how our students are progressing in their learning.*

For assistance with these questions and instructions on how to run the necessary reports in eLumen, [click here](#).

You should complete at least one of the following three sections. Please choose the option(s) below that are appropriate for your program - Go directly to the section(s) you chose.

- [C1: Instructional Programs with PSLOs \(disaggregated PSLOs\)](#)

- C2: Instructional Programs with CSLOs (*Departments without degrees, non-major courses, and/or other courses up for assessment*)
- C3: Non-Instructional Programs (SAOs)

C1: Instructional Programs with PSLOs (disaggregated PSLOs)

- 1) To assess PSLOs, CSLOs must be correctly mapped to only one PSLO within eLumen and every mapped CSLO must have assessment data. Please insert a checkmark in one of the following options that correctly describes your data and move on accordingly.
 - a. If the CSLOs are mapped correctly and there is data for each CSLO, then continue to question 2.
 - b. If the CSLOs have assessment data and the mapping needs to be completed, then complete the mapping within eLumen ([See SLO Handbook, p. 7](#)) and continue to question 2.
 - c. If not all of the mapped CSLOs have assessment data, then you cannot assess the PSLO. In this case, continue to question C2.
2. Based on your current [3-year plan](#), list the PSLO(s) for the academic year 2021-2022 that your program selected to review and explain why these were chosen.

We are assessing all of our PSLOs in each course but currently it will be at a more introductory level because we are only offering one course.

- 2) What percentage of faculty completed the planned assessments for the selected PSLO? ([run Faculty Participation report](#) from last year). ____100____%
- 3) Non-disaggregated Analysis of PSLO(s): In general, what conclusions can be drawn about student learning in your program?

Students are generally doing well in completing the introductory components of the PSLOs in the following areas

- Upon completion of the AA-T in Social Justice Studies: LGBTQ Studies, students will be able to discuss the social, economic, political, intellectual and cultural contributions of LGBTQ+ people of the past and present.

- Upon completion of the AA-T in Social Justice Studies: LGBTQ Studies, students will be able to discuss how sexual identity and gender identity combine with nationality, race and ethnicity, religion, social class, and physical ability to shape the experiences of LGBTQ+ individuals.
- Upon completion of the AA-T in Social Justice Studies: LGBTQ Studies, students will be able to compare and contrast the key methodologies utilized in LGBTQ+ studies.

Students need some additional support in understanding the following PSLO

- Upon completion of the AA-T in Social Justice Studies: LGBTQ Studies, students will be able to synthesize the relationships between epistemological frameworks used in LGBTQ+ studies and those used in other areas (i.e. Queer Theory, Feminist Theory, and Critical Theory).

- 4) Disaggregated Analysis of PSLO(s) to identify potential inequity: Disaggregation allows you to examine inequities in student learning outcomes within sub-populations in your program. [See the Guide](#) for instructions on how to disaggregate PSLO data.

Which variables did you use to disaggregate the data? Mark all that apply.

- | | |
|-----------------|--------------------|
| • Gender | • First Generation |
| • Age | • DE |
| • Ethnicity | • Online |
| • EOPS | • Hybrid |
| • Veteran | • Fact-to-Face |
| • BOG Recipient | |

- 5) Did your data reveal any patterns of inequity? If so, please explain those patterns.

Our sample sizes are too small to make meaningful conclusions about demographic data at this time.

- 6) Identify any challenges facing your department that may contribute to inequitable outcomes as revealed by your disaggregated PSLO data. (Refer to section 1B if needed)

n/a

- 7) Based on discussion with others in your program, explain potential changes that will improve student learning and address inequities identified through analysis of disaggregated PSLO data.
