Writer(s): Aki Hirose

SLO/SAO Point-Person: Aki Hirose

Audience: Deans, Vice Presidents of Student Services and Academic Services, All Planning and Allocation Committees. This document will be available to the public.

Uses: This Program Review will be used to inform the campus and community about your program. It will also be used in creating Division Summaries, determining College Planning Priorities, and allocating resources. The final use is to document fulfillment of accreditation requirements.

Please note: Program Review is NOT in itself a vehicle for making requests. All requests should be made through appropriate processes (e.g., Instructional Equipment Request Process) or directed to your Dean or supervisor.

Time Frame: This Program Review should reflect on program status during the 2022-23 academic year. It should describe plans starting now and continuing through 2023-24.

Sections: There are two sections to this document. Sections and questions identify the name of the committee or office that will use the information and where you can get additional help.

- The first section focuses on general program reflection and planning.
- The second section focuses on data analysis, including SLOs/SAOs/PSLOs
- The final section is a review of your pathway maps and curriculum, to be filled out only by programs with curriculum offerings.

Topics: The Program Review Glossary defines key terms. Writers should review this glossary before writing: <https://bit.ly/2LqPxOW>

[Frequently Asked Questions](#)

Throughout this document you'll see that equity is a guiding principle.

Here is the LPC definition:

Las Positas College will achieve equity by changing the impacts of structural racism, ableism, homophobia, and systematic poverty on student success and access to higher education, achieved through continuous evaluation and improvement of all services. We believe in a high-quality education focused on learning and an inclusive, culturally-relevant environment that meets the diverse needs of all our students.

LPC Equity Definition: Equity is parity in student educational outcomes. It places student success and belonging for students of color and disproportionately impacted students at the center of focus.

Section One: Your Program In 21-22 – Please check N/A where relevant

A. Accomplishments: Identify accomplishments from the 21-22 AY.

Some areas you may want to note in your explanation are:

- Did your accomplishments support your program's plans identified in 21-22 PR
- Did they relate to guided pathways, and/or
- Did they support areas in the equity definition above

_____ N/A

Accomplishments
1 We cross-listed SOC 3 with ETHS 6 by modifying the course title and its outline of record and submitted it for articulation. It was approved. This accomplishment is consistent with our plan in 21/22 PR. Currently, our program is the largest provider of CSU ethnic studies requirement courses. In this way, our contribution is an integral part of guided pathways. The course content supports our effort to achieve equity.

B. Challenges, Pain Points, and Needs:

What significant challenges or obstacles did your Program face during AY 21-22 especially related to accomplishing program goals/plans? You may want to consider areas in the equity definition on page 2.

_____ N/A

Challenges/Pain Points/Needs

1. The gaps among students in terms of preparedness for higher education are still one of the major challenges that we face. As studies in the sociology of education have demonstrated, there are social structural factors that significantly influence educational achievement gaps among different demographic groups. We are acutely aware that many of those factors are truly structural in nature. They are often beyond the control of individual educators and LPC as an educational institution.

2. Our SLO data collection and assessment effort were not satisfactory in AY 21-22. More resources might help facilitate more consistent data collection and analysis.

C. Reflecting on your program's experiences from 2020 - to 2022, what innovations or new processes did you integrate that you would like to continue?

_____ N/A

We are now in the process of collaborating with the Administration of Justice program by providing courses and instructions (SOC 3 and SOC 6) for the Certificate in 21st Century Policing program. Our involvement will start in the Spring 2023 semester.

D. Explain one way that your program is connected to the College Mission and/or Educational Master Plan. Identify the specific elements.

- [College Mission](#)
- [Educational Master Plan](#) (see pages 72-76)

_____ N/A

Most Sociology courses (i.e., 8 out of 9 courses) include the teaching of topics that address social inequality of various kinds. We also have dedicated courses that specifically teach students the issues related to race, ethnicity, gender, sexuality, and class. In this way, the Sociology program supports the

goal of educational excellence by providing students with opportunities to learn critical concepts necessary for the promotion of equity and anti-racism.

E. Planning: What are the most important plans, either new or continuing, for your Program?

_____N/A

Plan	New	Continuing	Short term	Long term
Working with the Administration of Justice in the Certificate in 21st Century Policing program	✓			✓

Section Two: Data Analysis – Quantitative and Qualitative

A. IR Data Review: Discuss any significant trends in the data provided by the Office of Institutional Research and Planning (or any other data you use for decision-making and planning).

(Note: Not all Programs have IR data available; if your program does not have a data packet or dashboard data, you may note that in the response box.)

- IR Data packets are available here (posted Fall 22): <https://bit.ly/2lYaFu7>
- Course Set Standard Overview & Success Rates Dashboard can be found in the middle of this page: <https://bit.ly/2Y9vGpl>

The most significant trend that we observed from the AY2021-22 data is the further decline in student enrollment numbers. The pattern is consistent with the trend that was also observed and reported in AY 2020-21 (and the years before). More specifically, the total course enrollment in Fall 2021 fell from 418 in Fall 2020 to 302. Similarly, the total course enrollment in Spring 2022 declined from 348 to 312. Some of the main reasons may be related to larger external factors such as the COVID pandemic, the transition to remote instruction, economic trends, and policy changes.

B. Program-Set Standard (Instructional Programs Only):

The program-set standard is a baseline that alerts programs if their student success rates have dipped suddenly. There are valid reasons a program does not meet the Program Set Standard; when a program does not meet this standard, they are simply asked to examine possible reasons and note any actions that should be taken, if appropriate.

[Program-set standard data can be found on this page](#)

- Did your program meet its program-set standard for successful course completion?

☒ Yes ☐ No

- If your program did not meet your program-set standard, discuss possible reasons and how this may affect program planning or resource requests.

C. SLOs/SAOs: Assessment of Student Learning and Support

Program Review is our major source of data on student learning for the college and is therefore regularly reviewed. *Each year programs must discuss how their PSLOs, CSLOs, or Service Area Outcomes (SAOs) support the College Mission. This helps us to see how our students are progressing in their learning.*

For assistance with these questions and instructions on how to run the necessary reports in eLumen, [click here](#).

You should complete at least one of the following three sections. Please choose the option(s) below that are appropriate for your program - Go directly to the section(s) you chose.

- [C1: Instructional Programs with PSLOs \(disaggregated PSLOs\)](#)
- [C2: Instructional Programs with CSLOs \(Departments without degrees, non-major courses, and/or other courses up for assessment\)](#)
- [C3: Non-Instructional Programs \(SAOs\)](#)

C1: Instructional Programs with PSLOs (disaggregated PSLOs)

- 1) To assess PSLOs, CSLOs must be correctly mapped to only one PSLO within eLumen and every mapped CSLO must have assessment data. Please insert a checkmark in one of the following options that correctly describes your data and move on accordingly.
 - a. If the CSLOs are mapped correctly and there is data for each CSLO, then continue to question 2.
 - b. If the CSLOs have assessment data and the mapping needs to be completed, then complete the mapping within eLumen ([See SLO Handbook, p. 7](#)) and continue to question 2.
 - c. If not all of the mapped CSLOs have assessment data, then you cannot assess the PSLO. In this case, continue to question C2.

2. Based on your current [3-year plan](#), list the PSLO(s) for the academic year 2021-2022 that your program selected to review and explain why these were chosen.

PSLO: Upon completion of Sociology AA-T program, the students should be able to analyze and describe the major concepts, theoretical perspectives, empirical findings, and historical trends in sociology.

We selected this PSLO because it relates to a CSLO that all sociology courses have.

2) What percentage of faculty completed the planned assessments for the selected PSLO? ([run Faculty Participation report](#) from last year). ____32____%

3) Non-disaggregated Analysis of PSLO(s): In general, what conclusions can be drawn about student learning in your program?

Our data are not large and robust enough to draw any valid conclusions.

4) Disaggregated Analysis of PSLO(s) to identify potential inequity: Disaggregation allows you to examine inequities in student learning outcomes within sub-populations in your program. [See the Guide](#) for instructions on how to disaggregate PSLO data.

Which variables did you use to disaggregate the data? Mark all the apply.

- | | |
|-----------------|--------------------|
| ● Gender | ● First Generation |
| ● Age | ● DE |
| ● Ethnicity | ● Online |
| ● EOPS | ● Hybrid |
| ● Veteran | ● Fact-to-Face |
| ● BOG Recipient | |

5) Did your data reveal any patterns of inequity? If so, please explain those patterns.

Due to the lack of sufficient data, we cannot identify any conclusive pattern.

- 6) Identify any challenges facing your department that may contribute to inequitable outcomes as revealed by your disaggregated PSLO data. (Refer to section 1B if needed)

No challenges were revealed by the data. This is most likely because we did not have strong enough data.

- 7) Based on discussion with others in your program, explain potential changes that will improve student learning and address inequities identified through analysis of disaggregated PSLO data.

We did not have any discussion about data.

- 8) The 2022-2023 Academic year is the last year in our 3-year assessment cycle. [Please review your 3-year plan](#) and verify that all of your courses will be assessed by June 2023.

Will all of your courses be assessed by June 2023?

___ Yes ___ ☒ No

If not, please update your 3-year plan to include any courses you missed or if you plan to revise your 3-year plan, then send your updated plan to the [Curriculum and SLO Specialist](#), and the [SLO Chair](#).

- 9) Are you planning on updating any CSLOs or PSLOs?

___ YES ___ ☒ NO

(If yes, then you may do this through eLumen, see the [SLO Handbook](#) if you need instructions on how to do this.)

- 10) If you experienced any challenges in completing your PSLO assessment process please list those in the box below along with any items that would help you improve this process in the future.

The lack of faculty participation in collecting data is the main reason why we do not have sufficient and robust data and meaningful assessment results. More resources (e.g., reassign time) are needed to address this problem.

C2: Instructional Programs With CSLOs - Departments without degrees, non-major courses, and/or other courses up for assessment

Program Review Suggestions (optional): What questions or suggestions do you have regarding this year's Program Review forms or process?

The instructions state on p.1: "Time Frame: This Program Review should reflect on program status during the 2022-23 academic year." As I mentioned this in the last PR, I find this statement confusing because this review mostly deals with data from AY 21-22 and is completed during the first semester of AY 22-23. We do not have data to assess our status during the 22-23 academic year.
