

Program Review Committee Update

The Program Review Update is due on November 3.

Templates for the Program Review Update can be found on the [Program Review Website](#).

Program Reviews should be emailed to Karin Spirn and to the program's dean.

For help with Program Reviews, programs should email Karin. They can also get help with John Rosen regarding SLO/SAOs.

There will be a working session on flex day where programs can work on and get help with their Program Review Updates.

In keeping with the Wellness Planning Priority, which includes meaningful sharing of knowledge and achievements, this year program review readers will nominate two lesser-known achievements or initiatives from each division to showcase as a Program Review Spotlight, allowing LPC to learn more about each other's great work!
