SECTION 1: EQUIPMENT DESCRIPTION

The equipment is: A Replacement An Upgrade New Equipment/Technology

Describe the specific equipment requested and how it will be used to replace, upgrade or provide new technology to LPC from what is currently in place:

These new soccer goals are new equipment made with new technology.

The new technology the two large goals have are swivel wheels and are safer and more mobile than the current goals that are being used. The current goals either don't have wheels or have wheels that require lifting of the heavy goals to set the wheels in motion. The current goals we have are dangerous for students and instructors use because they require heavy lifting and they can also damage the synthetic turf.

The six smaller goals are new equipment that also increase safety and mobility. These goals are heavy enough to not blow over or move on their own in the wind, our current small goals are not, and light enough to move safely since they don't require lifting.
