Review the draft template

The committee reviewed the updated draft of the template.

The committee discussed the question about which campus resources/systems the program had interacted with. We discussed whether this question might be useful for IPEC since organizational effectiveness is one of the categories in the mapping exercise for determining planning priorities. Some committee members did not feel that the information from the question made it into the division summaries in a thorough way.

The campus definition of equity was added to the beginning of the template. The wording of the first two questions (about achievements and obstacles) was altered slightly to clarify that identifying equity topics is encouraged but not required in those sections.

Nadiyah will contact the SLO and curriculum committees about their sections.

Action Items: Committee will review the accreditation items from the Shared Governance

On the Task list item on the form: Changed task related to helping deans to "Collaborated with deans to write division summaries." Added individual support for PR writers.
